We planned and performed our audit so as to obtain all the information and explanations which we considered necessary to provide us with sufficient evidence to give a reasonable assurance that the Financial Statements are free from material misstatements, whether caused by fraud, error or other irregularities.

In forming our opinion, we also evaluated the overall adequacy of the presentation of information in the Financial Statements and assessed whether the Centre of Excellence in Agricultural Development and Sustainable environment (CEADESE) books of accounts had been properly kept.

EXPLANATORY NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FOURTEEN (14) MONTHS PERIOD ENDED, 31 DECEMBER, 2014

**1.0 STATEMENT OF COMPLIANCE AND BASIS OF PREPARATION**

The financial statements of the centre have been prepared in accordance and compliance with International Public Sector Accounting Standard (IPSAS). The financial statements are presented in Naira, which is the functional and reporting currency of the centre.

The financial statements have been prepared on the basis of historical cost, unless stated otherwise. The Cashflows statement is prepared on cash basis using the client method.

**2.0 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**a) Property, Plant and Equipment**

All property, plant and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items. All other repair and maintenance costs are recognised in the statement of financial performance as incurred. Where an asset is acquired in a non-exchange transaction for nil or normal consideration the asset is initially measured at its fair value.

Under IPSAS 17, the centre has elected to use the cost model for all classes of property, plant and equipment, depreciation on assets is charged on a straight line basis over the useful life at the asset. Depreciation is charged at rates calculated to allocate the cost or valuation of the asset less any estimated residual value over its remaining useful life.

Computer Equipment	5years
Office Equipment	20years

**b) Intangible Assets**

Intangible Assets acquired separately are initially recognised at cost. The cost of intangible assets acquired on a non-exchange transaction is their fair value at the date of the exchange following initial recognition, intangible assets are carried at cost less any accumulated amortization and accumulated impairment losses.

**EXPLANATORY NOTES TO THE FINANCIAL STATEMENTS  
FOR THE FOURTEEN (14) MONTHS PERIOD ENDED, 31 DECEMBER, 2014**

Internally generated intangible assets, excluding capitalized development costs are not capitalized and expenditure is reflected in the statement of financial performance in the period in which the expenditure is incurred. Intangible assets with a finite useful life is amortized over its useful life.

Software	5years
----------	--------

Intangible assets with an infinite useful life are assessed for impairment whenever there is an indication that the asset may be impaired.

**c) Financial Liabilities**

Financial Liabilities within the scope of IPSAS 29 are classified as financial liabilities at fair value through surplus or deficit or loans, borrowings and advances as appropriate.

The centre determines the classification of its financial liabilities at initial recognition.

The centre's financial liability is mainly advances received from FUNAAB.

**d) Revenue Recognition**

**i. Revenue from Exchange Transaction**

IPSAS 9 applies to revenue arising from the following exchange transactions and events:

- The rendering of services
- The sale of goods, and
- The use of others of entity assets yielding interest, royalties and dividends
- Revenue shall be measured at the fair value of the consideration received or receivable.

Recognition:

- From sale of goods: When significant risks and rewards have been transferred to purchase, loss of effective control by seller, amount can be measured reliably; it is likely that the economic benefits or service potential associated with the transaction can be measured reliably.
